Lars B. Eller, President and Chief Executive Officer, stated, "I am extremely proud of how F&M's team responded to the challenging operating environment in 2023 as unprecedented rate increases caused significant competition for deposits and elevated our costs of funds. While these trends impacted earnings growth in 2023, we ended the year with record total assets, loans, net, and total deposits, as well as stockholders' equity. Our ability to grow our balance sheet throughout the year is a testament to the value we provide to our Ohio, Indiana and Michigan communities and the successful execution of our growth-oriented strategic plan."

Mr. Eller continued, "As we successfully navigated the challenging macro-landscape in 2023, we simultaneously invested in our business to make sure we had the right platform in place to support F&M's current and future needs. As a result, throughout 2023 we made calculated investments to expand our office network, enhance our products, add new IT capabilities, refine our corporate organization, and redesign our brand strategy. Highlights include adding offices in new markets including Oxford, OH and Birmingham MI, as well as expanding our local presence by adding a new office in Fort Wayne and a new regional office in downtown Toledo. In addition, our brand refresh to F&M has helped differentiate the Bank in our non-legacy markets, while doubling down on the strength of the F&M brand in our existing markets. During 2023, we also made several organizational changes to our leadership structure and added new back-office capabilities that we believe can support a bank with \$4 billion in assets."

Income Statement

Net income for the 2023 fourth quarter ended December 31, 2023, was \$5.5 million, compared to \$7.2 million for the same period last year. Net income per basic and diluted share for the 2023 fourth quarter was \$0.41, compared to \$0.53 for the same period last year. Net income for the 2023 twelve months ended December 31, 2023, was \$22.8 million, compared to \$32.5 million for the same period last year. Net income per basic and diluted share for the 2023 twelve months was \$1.67, compared to \$2.46 for the same period last year.

"Throughout 2023, the rapid rise in the Federal Funds Rate impacted our cost of funds and increased the competition for deposits. As a result, our cost of interest-bearing liabilities increased to 2.53% for the year ended December 31, 2023, from 0.74% last year. Our loan portfolio has also lagged in capturing sufficient yield to match the higher cost of funds mainly due to the timing to reprice our commercial real estate adjustable-rate mortgages. Approximately 25% of our loan portfolio will be subject to repricing in 2024. A challenging rate environment impacted overall profitability, as net interest income declined year-over-year by 10.7% for the fourth quarter, and by 3.1% for the full year. We are optimistic that the Federal Funds Rate has peaked and with a more stable rate environment expected in 2024, we believe we are well positioned for improved profitability this year," continued Mr. Eller.

At December 31, 2023, total deposits were \$2.61 billion, an increase of 5.6% from December 31, 2022. The Company's cost of interest-bearing liabilities was 3.02% for the quarter ended December 31, 2023, compared to 1.32% for the quarter ended December 31, 2022 and for the 2023 twelve months ended December 31, 2023 was 2.53% compared to 0.74% in the prior year.

Loan Portfolio and Asset Quality

Total loans, net at December 31, 2023, increased 9.5%, or by \$224.8 million to \$2.58 billion, compared to \$2.36 billion at December 31, 2022. The year-over-year improvement resulted primarily from the contribution of continued organic loan growth.

F&M continues to closely monitor its loan portfolio with a particular emphasis on higher risk sectors. Nonperforming loans were \$22.4 million, or 0.87% of total loans at December 31, 2023, compared to \$4.7 million, or 0.20% at December 31, 2022, and \$22.4 million, or 0.89% at September 30, 2023. The year-over-year increase in nonperforming loans was primarily due to two agricultural relationships, representing a combined balance of \$19.4 million. F&M does not foresee a loss on either loan and expects to receive settlements during the 2024 first and second quarters.

F&M maintains a well-balanced, diverse and high performing CRE portfolio. CRE loans represented 51.8% of the Company's total loan portfolio at December 31, 2023. In addition, F&M's commercial real estate office credit exposure represented 5.3% of the Company's total loan portfolio at December 31, 2023, with a weighted average loan-to-value of approximately 63% and an average loan of \$888,000.

F&M's CRE portfolio included the following categories at December 31, 2023:

*The Bank has adopted the Accumulated Other Comprehensive Income (AOCI) opt out election which removed AOCI from the calculation of tangible equity for regulatory purposes.

**ASU 2016-13 adopted during the first quarter of 2023; therefore, prior period's provision amount reflects the incurred loss method and the Bank has elected to spread the Capital adjustment over three years. The first year permits 75% of the capital adjustment to be removed from the calculation of tangible equity for regulatory purposes.
