"I am proud of the significant accomplishments we achieved during 2019, which includes the successful completion of the Bank of Geneva acquisition, strong organic loan and deposit growth, and improvements in profitability. As a result, 2019 was the fifth consecutive year of record assets and earnings," stated Lars B. Eller, President and Chief Executive Officer. "During 2019, we also developed a new three-year strategic plan and we have a clear roadmap to follow in 2020 and beyond, as we focus on our goal of becoming a financial institution with over \$3 billion in assets. We invested across our platform to build the necessary resources to support our growth initiatives and I am particularly pleased with the progress we made attracting, developing, and retaining key members of our leadership, lending and banking teams. This will be an important initiative for F&M during 2020 and I look forward to reporting on our progress. As we look to the future, I am encouraged by F&M's position to consistently and profitably grow,

while supporting our customers, local communities and employees. I am excited by the direction we are headed and expect 2020 to be a year of execution and strong financial performance for F&M."

#### **Income Statement**

Net income for the fourth quarter ended December 31, 2019, was \$4.7 million, compared to \$3.2 million for the same period last year. Earnings per basic and diluted share for the 2019 fourth quarter was \$0.43, compared to \$0.34 for the same period last year. 2019 fourth quarter earnings included \$0.02 per basic and diluted share of one-time acquisition related expenses and a 19.9% increase in the weighted average common shares outstanding due to the additional shares from the Limberlost acquisition. 2018's fourth quarter earnings included one-time merger related expenses of \$0.07 per basic and diluted share.

Net income for the year ended December 31, 2019, was \$18.4 million, compared to \$14.9 million for the year ended December 31, 2018. Earnings per basic and diluted share for 2019 was \$1.66, compared to \$1.61 for the same period last year. 2019 earnings included \$0.03 per basic and diluted share of one-time acquisition related expenses, and a 19.9% increase in the weighted average common shares outstanding due to the additional shares from the Limberlost acquisition. 2018's earnings included one-time merger related expenses of \$0.07 per basic and diluted share.

Mr. Eller continued, "We ended 2019 with record annual and quarterly net income as a result of a 32.6% annual increase in net interest income after provision for loan losses and an 8.8% annual increase in noninterest income. For the year 2019, we worked hard and lowered our operating efficiency ratio to 60.96% at the Bank level, excluding acquisition and captive expenses. We expect interest rates will remain low throughout 2020 as a result of Federal Reserve monetary policies, which we believe will put pressure on interest income across our industry. We are focused on offsetting the macro related impact on interest income during 2020 by maintaining a stable net interest margin, increasing core deposits, driving loan growth and managing risk."

#### **Deposits**

At December 31, 2019, total deposits were \$1.288 billion, an increase of 38.7% from December 31, 2018. The significant organic deposit growth we have been experiencing continues to be due primarily to new product development that has allowed F&M to attract new customers and expand existing customer holdings.

#### Loan Portfolio

Total loans, net at December 31, 2019, increased 44.3%, or by \$372.2 million to \$1.212 billion, compared to \$839.6 million at December 31, 2018, and up 5.2%, or \$59.8 million from \$1.152 billion at September 30, 2019. The year-over-year improvement resulted primarily from the contribution of the Bank of Geneva acquisition and organic loan growth.

"F&M's market share increased throughout 2019 as we experienced strong organic loan and deposit growth and, for the month of December 2019 alone, net loans increased over \$58 million. In addition, fourth quarter 2019 ended with the largest number of 1-4 family loans being closed in the last ten years. Our strong loan and deposit growth are primarily due to our leading position in many of the markets we serve, our strong network of local bankers, and our compelling financial products and services."

"During 2019, we completed a comprehensive review of each loan from the Bank of Geneva merger. As a result, our nonperforming assets to total assets increased from 0.10% at December 31, 2018, to 0.22% at December 31, 2019, and our over-30-day past due loans to total loans increased from 0.09% at December 31, 2018 to 0.18% at December 31, 2019. Despite these increases, our net charge-offs to average loans was stable year-over-year and our overall asset quality remains significantly better than many of our peers. Provision expense for the fourth quarter was higher than previous quarters as we provided for the significant amount of organic loan growth and our reviewed and subsequently refinanced acquisition loans. In addition, our allowance for loan and lease does not include a \$2.1 million credit mark associated with the Limberlost acquisition, which further supports the future performance of our loan portfolio. With stable asset quality and strong liquidity, we have significant capital to support our growth initiatives," concluded Mr. Eller.

#### Stockholders' Equity and Dividends

Total stockholders' equity increased 60.7% to \$230.3 million at December 31, 2019, from \$143.3 million at December 31, 2018. At December 31, 2019, the company had a Tier 1 leverage ratio of 11.52%, compared to 12.81%

at December 31, 2018. The decline in the Tier 1 leverage ratio was primarily due to the added goodwill associated with the Limberlost acquisition.

Tangible stockholders' equity increased to \$178.3 million at December 31, 2019, compared to \$141.9 million at December 31, 2018. On a per share basis, tangible stockholders' equity at December 31, 2019, was \$16.01 per share, compared to \$15.28 per share at December 31, 2018.

For 2019, we raised our dividend again. The company declared cash dividends of \$0.61 per share, an 8.9% increase over \$0.56 per share declared in 2018. For 2019, the dividend payout ratio was 36.59% compared to 25.18% for the same period last year.
