Notes to Condensed Consolidated Unaudited Financial Statements

NOTE 1 BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions for Form 10Q and Rule 10-01 of Regulation S-X; accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments, consisting of normal recurring accruals, considered necessary for a fair presentation have been included. Operating results for the three months ended March 31, 2007 are not necessarily indicative of the results that are expected for the year ended December 31, 2007. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's annual report on Form 10-K for the year ended December 31, 2006.

The Company's Board of Directors declared a 4 for 1 stock split effective May 12, 2006. Therefore, all references in the financial statements and other disclosures related to the number of shares and per share amounts of the Company's stock have been retroactively restated to reflect the increased number of shares outstanding.

ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATIONS

Statements contained in this portion of the Company's report may be forward-looking statements, as that term is defined in the Private Securities Litigation Reform Act of 1995. Forward-looking statements may be identified by the use of words such as "intend," "believe," "expect," "anticipate," "should," "planned," "estimated," and "potential." Such forward-looking statements are based on current expectations, but may differ materially from those currently anticipated due to a number of factors, which include, but are not limited to, factors discussed in documents filed by the Company with the Securities and Exchange Commission from time to time. Other factors which could have a material adverse effect on the operations of the company and its subsidiaries which include, but are not limited to, changes in interest rates, general economic conditions, legislative and regulatory changes, monetary and fiscal policies of the U.S. Government, including policies of the U.S. Treasury and the Federal Reserve Board, the quality and composition of the loan or investment portfolios, demand for loan products, deposit flows, competition, demand for financial services in the Bank's market area, changes in relevant accounting principles and guidelines and other factors over which management has no control. The forward-looking statements are made as of the date of this report, and the Company assumes no obligation to update the forward-looking statements or to update the reasons why actual results differ from those projected in the forward-looking statements.

CRITICAL ACCOUNTING POLICY AND ESTIMATES

The Company's consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States of America, and the Company follows general practices within the industries in which it operates. At times the application of these principles requires Management to make assumptions estimates and judgments that affect the amounts reported in the financial statements. These assumptions, estimates and judgments are based on information available as of the date of the financial statements. As this information changes, the financial statements could reflect different assumptions, estimates and judgments. Certain policies inherently have a greater reliance on assumptions, estimates and judgments and as such have a greater possibility of producing results that could be materially different than originally reported. Examples of critical assumptions, estimates and judgments are when assets and liabilities are required to be recorded at fair value, when a decline in the value of an asset not required to be recorded at fair value warrants an impairment write-down or valuation reserve to be established, or when an asset or liability must be recorded contingent upon a future event.

Based on the valuation techniques used and the sensitivity of financial statement amounts to assumptions, estimates, and judgments underlying those amounts, management has identified the determination of the Allowance for Loan and Lease Losses (ALLL) and the valuation

ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATIONS (Continued)

of its Mortgage Servicing Rights as the accounting areas that requires the most subjective or complex judgments, and as such have the highest possibility of being subject to revision as as new information becomes available.

The ALLL represents management's estimate of credit losses inherent in the Bank's loan portfolio at the report date. The estimate is composite of a variety of factors including past experience, collateral value and the general economy. ALLL includes a specific portion, a formula driven portion, and a general nonspecific portion.

Farmers & Merchants Bancorp, Inc. was incorporated on February 25, 1985, under the laws of the State of Ohio. Farmers & Merchants Bancorp, Inc., and its subsidiaries The Farmers & Merchants State Bank and Farmers & Merchants Life Insurance Company are engaged in commercial banking and life and disability insurance, respectively. The executive offices of Farmers & Merchants Bancorp, Inc. are located at 307-11 North Defiance Street, Archbold, Ohio 43502.

LIQUIDITY, CAPITAL RESOURCES AND MATERIAL CHANGES IN FINANCIAL CONDITION

Loan growth during the quarter totaled just over \$9.5 million. The largest growth of over \$5.5 million occurred in the commercial real estate portfolio. This was coupled with \$2.5 million increase in commercial loans and a \$400 thousand increase in the home equity portfolio. The overall growth was funded from the asset side of the balance sheet. A decrease in cash and federal funds sold of almost \$14 million. Also decreasing was the rest of the loan portfolio and the investment portfolio contained runoff of approximately \$6 million which wasn't reinvested in the first quarter. Other assets increased by \$4.26 million mainly due to an additional BOLI (Bank Owned Life Insurance) purchase of \$3 million in January 2007. This BOLI purchase was completed for asset yield improvement to fund the ever increasing employee medical costs of the Bank. The Bank also completed the purchase of land for its next branch location in Perrysburg, Ohio. Overall, the Company's assets decreased \$5.56 million to end the quarter at \$731.54 million. Liquidity remained strong with loans to assets hovering around seventy percent, up just slightly from December 31, 2006's sixty eight percent. The Bank is currently at the low end of the target range for this ratio.

Loans past due 30 days or more as a percentage of total loans as of December 31, 2006 were .31% compared to March 31, 2007's .53%. The largest increase in the comparison was located in the 1-4 family real estate portfolio. The real estate and overall percentages, however, still remain below the target percentage. Asset quality remains strong with net charge-off activity for the quarter below \$100,000.

Total deposit footings decreased just under \$8 million as of quarter end compared to year end. Growth occurred in time deposits of over \$5 million while the footings decreased in checking and savings accounts by a combined total of \$13 million. The Bank continues to offer higher rates for short-term CD's with an incentive rate for continuing or establishing a relationship (checking) account with the Bank. To encourage core deposit growth, the Bank is also running a "refer a friend" deposit promotion. The number of accounts being opened continues to improve with the decrease in footings being linked to commercial and public fund accounts. The Bank has also begun offering Health Savings Accounts (HSA) and while building the portfolio will take time, it is encouraged by the success achieved within the first quarter bringing in \$198 thousand on deposit.

The Company purchased 17,445 shares of Treasury stock during March for an outlay of nearly \$400 thousand for the transactions. These transactions are a continuation of the buyback agreement authorized in the fourth quarter of 2006 and may continue throughout 2007.

ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATIONS (Continued)

MATERIAL CHANGES IN RESULTS OF OPERATIONS

The income statement shows improvement in net interest income as comparing quarter end March 2007 to March 2006. As the Federal Reserve has left rates unchanged since June 2006, improvement has been seen in the net interest margin. Interest income and interest expense are both higher given the higher rate environment compared to a year ago and a higher asset size of the Company. Borrowed funds interest expense is higher due to the Bank being in a net Federal Funds Purchase position for much of the quarter. This is also confirmed with the lower interest income reported in Federal Funds. More discussion on the net interest margin is included with the interest rate shock on net interest margin report under Market Risk. Overall net interest income improved by 5.2% over 2006 with the asset size growing by less than 3.5%.

The non interest components of the statement of income show a slight decrease of \$49 thousand in income and a slight increase of \$101 thousand in expense. As stated previously, asset quality remained strong and the provision for loan losses posted a slight income position of \$19 thousand compared to \$50 thousand in 2006. Expenses related to personnel were responsible for the increase in non interest expense with the largest increase in the employee benefits as medical claims increased during 2007. Other operating expense actually decreased as compared to March 2006 by over \$190 thousand. A \$45 thousand decrease is attributable to lower audit and exam fees due to being an accelerated filer and adjusting audit procedures to better incorporate SOX control issues with general audit. The Bank has renewed contracts and/or vendors with more favorable terms such as the savings attributable to ATM processing of \$30 thousand and discontinuing some consulting fees saving almost \$61 thousand as compared to first quarter last year. Cost savings continues to be a focus for the Company. Increased use of imaging technology is being implemented during 2007 with efficiency and improved customer service the planned outcomes.

Overall net income improved by 3% as compared to quarter end 2006 and net income per share improved to \$.40 as of March 31, 2007 compared to March 31, 2006's \$.39 per share. Comprehensive income shows the unrealized gain (loss) position on securities continuing to improve due to the maturing and reinvesting activities over the last year.

The company continues to be well-capitalized as the capital ratios below show:

Primary Ratio	12.96%
Tier I Leverage Ratio	12.20%
Risk Based Capital Tier 1	16.07%
Total Risk Based Capital	17.08%
Stockholders' Equity/Total Assets	12.15%

ITEM 3 QUALITATIVE AND QUANTITATIVE DISCLOSURES ABOUT MARKET RISK

Market risk is the exposure to loss resulting from changes in interest rates and equity prices. The primary market risk to which the Company is subject is interest rate risk. The majority of the Company's interest rate risk arises from the instruments, positions and transactions entered into for purposes, other than trading, such as lending, investing and securing sources of funds. Interest rate risk occurs when interest bearing assets and liabilities reprice at different times as market interest rates change. For example, if fixed rate assets are funded with variable rate debt, the spread between asset and liability rates will decline or turn negative if rates increase.

Interest rate risk is managed within an overall asset/liability framework for the Company. The principal objectives of asset/liability management are to manage sensitivity of net interest spreads and net income to potential changes in interest rates. Funding positions are kept within predetermined limits designed to ensure that risk-taking is not excessive and that liquidity is properly managed. The Company employs a sensitivity analysis in the form of a net interest rate shock as shown in the table following.

Interest Rate Shock on Net Interest Margin			Interest Rate Shock on Net Interest Income		
Net Interest Margin (Ratio)	% Change to Flat Rate	Rate Direction	Rate Changes by	Cumulative Total (\$000)	% Change to Flat Rate
2.94%	-15.463%	Rising	3.000%	5,531	-15.741%
3.12%	-10.245%	Rising	2.000%	5,879	-10.436%
3.30%	-5.091%	Rising	1.000%	6,224	-5.189%
3.48%	0.000%	Flat	0.000%	6,564	0.000%
3.65%	5.005%	Falling	-1.000%	6,900	5.107%
3.85%	10.607%	Falling	-2.000%	7,262	10.629%
3.90%	12.070%	Falling	-3.000%	7,347	11.924%

The net interest margin represents the forecasted twelve month margin. The predicted margin is lower than the Bank's current net interest margin. This is due mainly to the shortened duration of the certificate of deposit portfolio and correlates into the scenario of higher rates representing a loss of margin as compared to the repricing of those CDs in a falling rate environment. The uncertainty of the direction of any rate movements and the flat and inverted yield curve have facilitated the Bank taking the position it has. The range of the fluctuation of the percentage change is 10% higher than a year ago with last year's ranging from 2 to 6%. The positive effect of a falling rate environment at all rate shock levels is also an improvement from a year ago.

The Bank will continue to focus on controlling the cost of funds through deposit promotions aimed at gaining more relationships per customer. Improving the overall asset yield is the other side of the equation that needs to be addressed. Fierce competition continues to pressure the yield and the Bank has focused on using a combination of rate and fees to attract new business. The addition of another banking location will help the expansion of the market though its completion will be late 2007.

ITEM 4 CONTROLS AND PROCEDURES

As of March 31, 2007, an evaluation was performed under the supervision and with the participation of the Company's management including the CEO and CFO, of the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on that evaluation, the Company's management, including the CEO and CFO, concluded that the Company's disclosure controls and procedures were effective as of March 31, 2007. There have been no significant changes in the Company's internal controls that occurred for the quarter ended March 31, 2007.

PART II

ITEM 1 LEGAL PROCEEDINGS

None

ITEM 1A RISK FACTORS

There have been no material changes in the risk factors disclosed by Registrant in its Report on Form 10-K for the fiscal year ended December 31, 2006.

ITEM 2 UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Period	(a) Total Number of Shares Purchased	(b) Average Price Paid per Share	(c) Total Number of Shares Purchased as Part of Publicly Announced Plan or Programs	(d) Maximum Number of Shares that may yet be purchased under the Plans or Programs
1/1/2007 to 1/31/2007				228,000
2/1/2007 to 2/28/2007				228,000
3/1/2007 to 3/31/2007	17,445	\$22.67	17,445	210,555
Total	17,445 =====	\$22.67 =====	17,445(1) =====	210,555 =====

(1) The Company purchased these shares in the market pursuant to a stock repurchase program publicly announced on October 20, 2006. On that date, the Board of Directors authorized the repurchase of 250,000 common shares between October 20, 2006 and December 31, 2007.

ITEM 3 DEFAULTS UPON SENIOR SECURITIES

None

ITEM 4 SUBMISSION OF MATTERS TO A VOTE OF SECURITIES HOLDERS

None

I, Barbara J. Britenriker, Executive Vice-President and CFO of Farmers & Merchants Bancorp, Inc., certify that:

- 1 I have reviewed this quarterly report on Form 10-Q of Farmers & Merchants Bancorp, Inc.;
- 2 Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3 Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4 The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in the Exchange Acts Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect the registrant's internal control over financial reporting; and
- 5 The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal controls over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
